Premier Waterfront Products

Sit down, relax and think about how you'd like to spend your time on the water. After all, you deserve it. You've worked hard and have earned the right to ask for more than the standard experience. That's one of the reasons why you've picked up this catalog. Your time is extremely important, and every moment that passes by can only truly be captured by your imagination and memories. We want to give you more time to capture those memories by providing you with a premier waterfront experience. ShoreMaster designs and manufactures the finest products in order to provide you and your family with this premier experience.

Unique Features That Set ShoreMaster Apart From The Competition

People who live, work and play on the water already know that for over thirty years ShoreMaster has been designing premier waterfront equipment that enhances everybody's enjoyment on the water. Read on and learn about the unique features that set ShoreMaster apart from the competition.

- We have an extensive and growing dealer network, so you'll always find the ShoreMaster product you need, no matter where you go.
- ShoreMaster offers the most diverse and complete product line-up in the industry, giving you complete control of your waterfront lifestyle.
- ShoreMaster makes waterfront living easy with the Infinity line of dock systems that offer easy-assembly frame construction and the quick connection system for accessories.

The possibilities are endless.

ShoreMaster Docks

Your dock means so many different things to you. It means spending time with your family and friends, it means fishing with your children and it means watching a sunrise before anyone else is awake. Create your own premier experience and start making memories with the docks and dock accessories from ShoreMaster. Imagine the countless configurations as you create your own unique waterfront experience. Then define your style with an assortment of ShoreMaster Dock Accessories.

ShoreMaster Floating Docks

Spend less time making adjustments to your dock with a Floating Dock system from ShoreMaster. Our dock systems allow you the ability to float your entire dock into position with ease. ShoreMaster Floating Dock systems work great just about everywhere and they're superior at handling deep and fluctuating water. ShoreMaster Floating Docks are perfect for waterfront locations with muddy bottoms or difficult conditions for dock assembly or storage.

Infinity Standing Docks

A perfect day on the water – that's exactly what an Infinity Standing Dock from ShoreMaster will give you. The Infinity Series of Standing Docks from ShoreMaster gives you complete control of your waterfront lifestyle. Choose an RS4 Standing Dock system for lightweight simplicity and the ability to add Curved Dock sections, an RS7 Standing Dock system for beauty and strength, or the TS9 Truss Dock system for good looks and lightweight durability. The Infinity Series features the finest quality aluminum components and requires only a few or, in some cases, no tools at all to lay out and install the dock of your dreams. After all, the time you and your family spend on an Infinity Standing Dock system should be perfect.

Infinity Wheel-In Docks

An Infinity Wheel-In Dock lets the good times roll all season long. With easy wheel-in installation and easy wheel-out removal, our Infinity Wheel-In Dock system is a great choice if you need to remove your dock for the winter months to protect it from ice damage. The RS7 and TS9 Wheel-In Dock systems from ShoreMaster are designed for maximum stability and they're built tough to endure season after season of installation and removal. ShoreMaster's Infinity Wheel-In Dock system is also a great choice when you have a firm lake bottom and minimal elevation at the shore.

Floating Docks

SHOREMASTER KITDOCK

The KitDock offers you the ability to design and install your very own customized dock in less time than with a custom-built dock. The KitDock's standardized frames allow you to choose your dock configuration quickly and easily. Plus, you can easily add sections as your waterfront lifestyle changes. The addition of a KitDock provides an element of stability, beauty and functionality to your waterfront. Choose from a wide range of roofing color options, decking styles and accessories to put the finishing touches on your masterpiece. The KitDock from ShoreMaster is a safe, durable and maintenance-free floating dock solution that you'll be proud of year after year.

Decking Options include GalvaFoam's Dry-Cast White Concrete Decking or ACQ Lumber.

Kit Dock Product Features

The Kit Dock and its components can now be stocked at all dealer locations. Inquiries are welcome.

All Dock Configurations Include:

- Hot-dipped zinc galvanized dock sections
- Roof columns and purlins
- Standard underwater stabilizers
- Vinyl perimeter/post bumpers (black or white) with fasteners
- Dockside ramp bracket
- 20-inch roto-molded flotation

Options

- Roofing, sheeting and trim
- Decking comes in #1 treated wood, white dry-cast concrete
- Roof columns and purlins
- 2-inch by 6-inch #1 CCA treated rubrail with fasteners
- Two 4-foot corner braces*
- Four 10-inch steel cleats
- Wide-side options, with or without decking*

* Available in wood decking only

13 standard roof colors available

FTS9

The FTS9 Floating Dock system from ShoreMaster will give you the confidence to forget about the dock under your feet and enjoy the reasons that you're out on the water in the first place. The FTS9 can be configured in just about any style that you choose, so it always feels like an integral part of your waterfront style, rather than something that limits what you can do on the water.

Truss Design and Frame Construction

- The FTS9 features a 9" side aluminum truss for a superior strength-to-weight ratio.
- All-aluminum frame construction for maximum durability.
- FTS9 frame-to-frame connection points are through-bolted with stainless steel and brass hardware for maximum strength and stability.

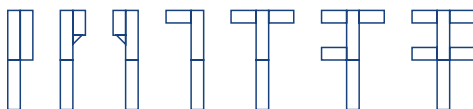

Trim Strips

- Enhance the beauty of your dock with easy-to-install trim strips. They snap right into the aluminum channel on the dock.
- Available in six colors: blue, green, tan, white, blue glow-in-the-dark, and green glow-in-the-dark.

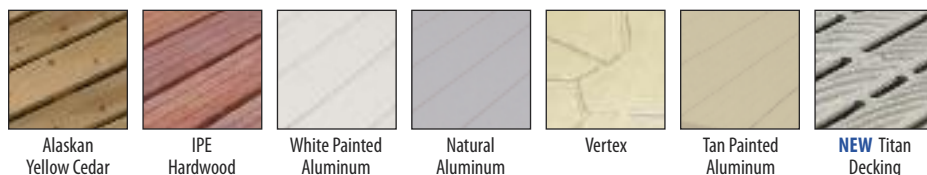

- 12" tall flotation is standard, but other size floats are available to accommodate the different ways you use your dock.

Examples of Deck Configurations

Floating Docks

PolyDock

Spending time on the water helps you feel free from the stresses that can complicate life on land. ShoreMaster's PolyDock gives you the freedom to get away from it all and get out on the water. Our PolyDock Floating Dock system is designed to be maintenance-free so there's even less to worry about. The modular design lets you choose the layout you want while giving you one of the most stable modular floating dock systems on the market.

Assembly

- The special PolyDock connector is designed for easy installation.
- Available in 4-, 6- and 10-foot lengths to accommodate your dock configuration.

Pipe Brackets

- Durable polyethylene pipe brackets keep your dock in place with changing water levels and add stability.

Chain anchor kits (not shown) are also available.

Exceptional Design and Construction

- Aesthetically-pleasing sandstone brick pattern.
- Safe, non-slip surface.
- All-polyethylene shell construction provides strength and durability.

PolyDock Corner Section

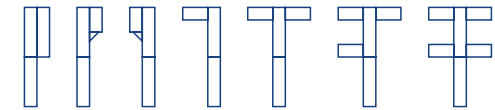

- 4-foot triangle section.
- Provides additional walking surface.
- Adds strength and stability.
- Allows for unique layouts.

Accessories Available (See website for photos)

- Ramp
- Handrail
- Flagpole Holder
- Bench
- Bumpers
- Cleats
- Ladder

Free-Standing Docks

Infinity RS7

ShoreMaster's Infinity RS7 Standing Dock is built tough to handle some of the harshest waterfront conditions around. The RS7 will quickly become the life of the party when the water calms, inviting your bare feet to dangle in the water. You'll love ShoreMaster's RS7 Infinity Standing Dock and each of its many enduring qualities.

DECK OPTIONS

Quick Connection System for Accessories

- Allows for easy no-tool attachment and movement of accessories including off-deck benches, vertical bumpers, steps, ladders and more.

Easy Assembly

- Our simple-to-use dock pieces connect by hand. Simply lower the dock section into the channel and tighten the Quick Connect screws.

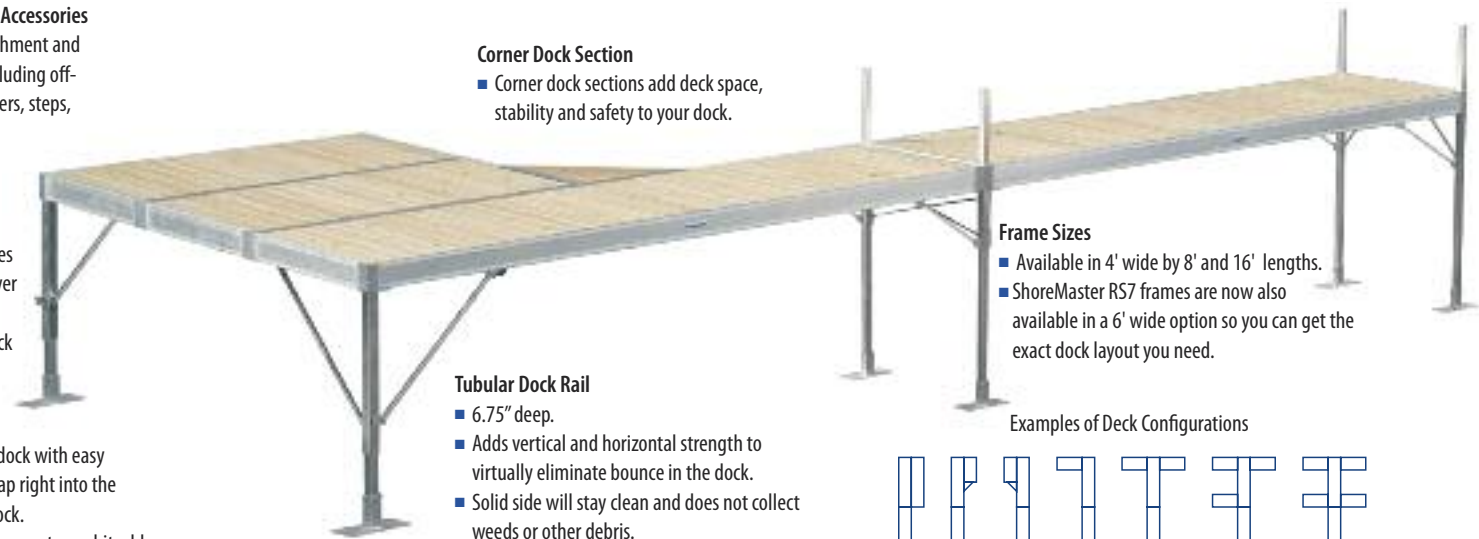

Trim Strips

- Enhance the beauty of your dock with easy to install trim strips. They snap right into the aluminum channel on the dock.
- Available in six colors: blue, green, tan, white, blue glow-in-the-dark, and green glow-in-the-dark.

Corner Dock Section

- Corner dock sections add deck space, stability and safety to your dock.

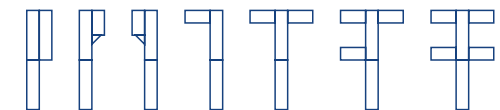

Tubular Dock Rail

- 6.75" deep.
- Adds vertical and horizontal strength to virtually eliminate bounce in the dock.
- Solid side will stay clean and does not collect weeds or other debris.

Frame Sizes

- Available in 4' wide by 8' and 16' lengths.
- ShoreMaster RS7 frames are now also available in a 6' wide option so you can get the exact dock layout you need.

Examples of Deck Configurations

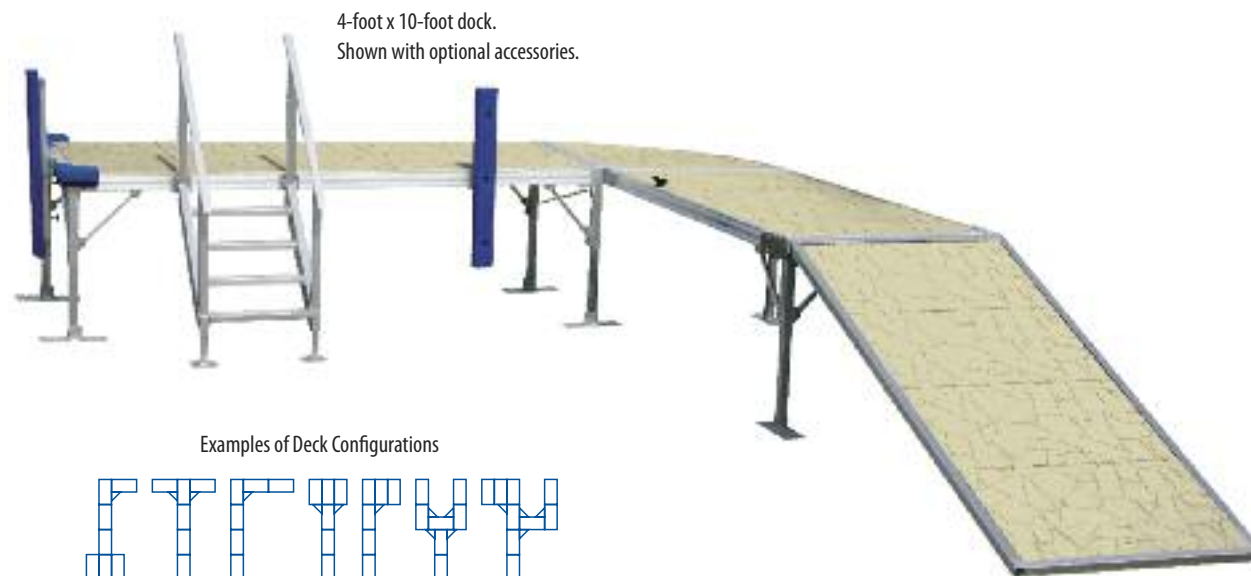

Go to www.shoremaster.com and design your new dock using Dock Builder!

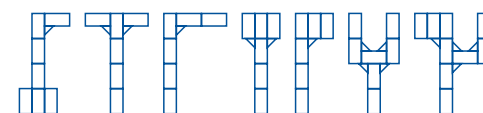

Infinity RS4

The Infinity RS4 Standing Dock from ShoreMaster fits your unique style to a “T” or an “L” or however you want to configure your dock. With the RS4, you just imagine the ways that you want to use your dock, then configure it! If your style changes and you want to rearrange your entire dock system, not a problem, you can change as you go. The Infinity RS4’s lightweight aluminum construction means it looks fantastic and it’s easy to install, alter, and remove.

4-foot x 10-foot dock.
Shown with optional accessories.

Examples of Deck Configurations

Quick Connection System

- Allows for easy, no-tool attachment and movement of accessories, including off-deck benches, vertical bumpers, steps and more.

Easy Assembly

- Our simple-to-use dock pieces connect by hand. Simply lower the dock section into the channel and tighten the Quick Connect screws.

Infinity Leg Pocket

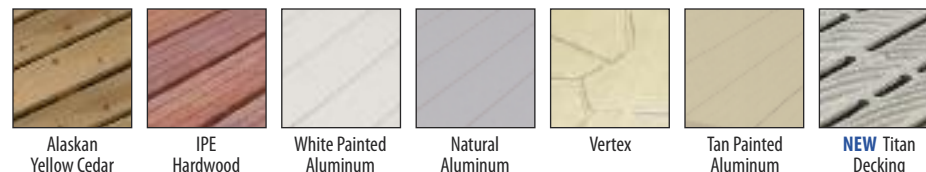

- Increases stability.
- No-tool leg adjustment.
- Fits all ShoreMaster Infinity docks.
- Stainless steel and brass hardware.

Trim Strips

- Enhance the beauty of your dock with easy-to-install trim strips. They snap right into the aluminum channel on the dock.
- Available in six colors: blue, green, tan, white, blue glow-in-the-dark, and green glow-in-the-dark.

DECK OPTIONS

Free-Standing Docks

Infinity RS4 *Curved Dock Sections*

Who said your dock has to be square? Not the design team at ShoreMaster! We know how curves can create wandering eyes, especially from your envious neighbors. ShoreMaster's Infinity RS4 Curved Dock Sections take a good thing and make it even better. You no longer have to conform to the "rules" by which other docks play. Throw a curve into your RS4 dock system; after all, your shoreline isn't exactly square, is it?

1/4 Round

- Put your imagination to the test for all sorts of interesting possibilities. Use 1/4 round sections with other curved sections, or our 4-foot by 10-foot RS4 sections, or put four together to create an 8-foot diameter platform.

1/8 Round

- Like our 1/4 round sections, you can use 1/8 rounds with other curved or standard RS4 sections.

Infinity TS9

We believe you when you say you want a dock that is lightweight and still super strong, which is why we know you'll fall in love with our Infinity TS9 Standing Dock. When it comes to handling the pressure of your waterfront environment, the Infinity TS9 Standing Dock is no lightweight and can take one serious beating. The nature of its truss design gives it a competitive advantage over most dock systems. It's strong, lightweight, looks good, and when the waves get big enough, they just pass right through the frame.

Frame Sizes

- Available in standard 4' width, ShoreMaster TS9 frames are now also available in a 6' wide option so you can get the exact dock layout you need.

Optional Easy-Adjust Screw Leg with Foot Pad

- Adjust the leg height from the top of the dock.
- Increased stability.
- Fits all ShoreMaster Infinity Docks.

Quick Connection System

- Allows easy no-tool attachment and movement of accessories including off-deck benches, vertical bumpers, steps, ladders and more.

Easy Assembly

- Our simple-to-use-dock pieces connect by hand. Simply lower the dock section into the channel and tighten the Quick Connect screws.

Trim Strips

- Enhance the beauty of your dock with easy-to-install trim strips. They snap right into the aluminum channel on the dock.
- Available in six colors: blue, green, tan, white, blue glow-in-the-dark, and green glow-in-the-dark.

Infinity Leg Pocket

- Increases stability.
- No-tool leg adjustment.
- Fits all ShoreMaster Infinity Docks.
- Stainless steel and brass hardware.

Truss Design

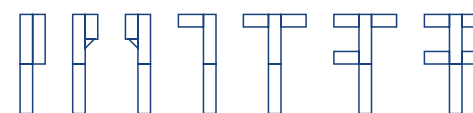

- Engineered to provide the greatest strength-to-weight ratio.

Recessed Decking

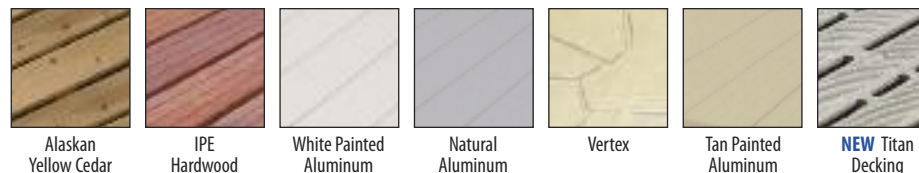

- Our TS9 decking is recessed in the truss channel for additional strength and protection.

DECK OPTIONS

Wheel-In Docks

Tubular Dock Rail

- 6.75" deep
- Adds vertical and horizontal strength to virtually eliminate bounce in the dock.

Corner Dock Section

- Corner dock sections add deck space, stability and safety to your dock.

Frame Sizes

- Available in 4' wide by 8' and 16' lengths.
- ShoreMaster RS7 frames are now also available in a 6' wide option so you can get the exact dock layout you need.

Poly Tire

- Tested to 3,000 pounds, these poly tires with rigid sidewalls will not go flat. Intake vents automatically fill the tire with water to add stability to your dock.

Easy Assembly

- Our simple-to-use-dock pieces connect by hand. Simply lower the dock section into the channel and tighten the Quick Connect screws.

Trim Strips

- Enhance the beauty of your dock with easy-to-install trim strips. They snap right into the aluminum channel on the dock.
- Available in six colors: blue, green, tan, white, blue glow-in-the-dark, and green glow-in-the-dark.

Caterpillar Connection

- This accessory allows wheeled-section docks to pivot as they are moved in and out of the water. The caterpillar clip will attach anywhere to the perimeter of your dock providing you with dock removal that is quick and easy.

Quick Connection System

- Allows for easy no-tool attachment and movement of accessories including off-deck benches, vertical bumpers, steps, ladders and more.

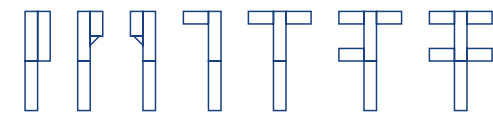

Center Stringer

- A strong tubular center and crossmembers provide structural integrity for the RS7 that gives you years of safe, reliable service.

Infinity RS7

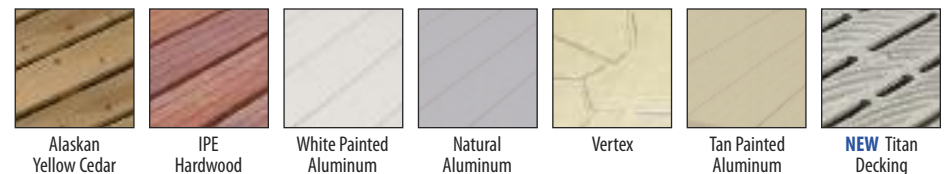

The Infinity RS7 Wheel-In Dock from ShoreMaster is a great companion for your waterfront adventures, giving you the option to move the dock easily and as often as necessary. If you live in an area where the lakes freeze for the winter, you will love the ability to install and remove your wheel-in system as a complete unit, without the hassle of deconstructing the entire system. You'll have more fun with the Infinity RS7 system when everything rolls into place.

DECK OPTIONS

Infinity TS9

Choices are the spice of life. ShoreMaster's Infinity TS9 Wheel-In Dock will really spice up your waterfront adventures. Choose from two great styles, each with its own unique advantages, and you'll be on the water in no time! The TS9 Easy Adjust Wheel Leg style conveniently allows you to make leg height adjustments while on the dock. The TS9's roll-in style gives you an economic alternative while still providing easy installation and removal with just a simple roll in or out.

TS9 Easy Adjust Wheel Leg

TS9 Roll-In Style

Truss Design

DECK OPTIONS

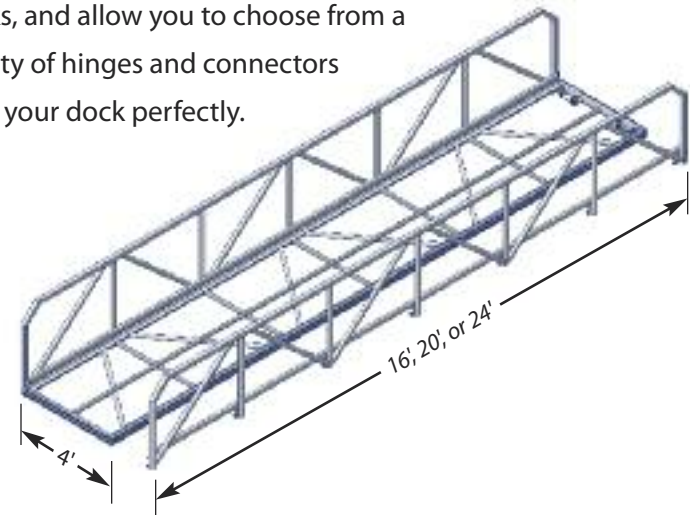

Gangways & Ramps

Residential Gangways

ShoreMaster's Residential Gangways and Ramps provide the finest transition from your shoreline to your dock system. The beauty of the residential gangway is that it incorporates the handrails into its construction giving you the ultimate in transitional safety while providing enough strength to span 16', 20', and 24'. ShoreMaster's Residential Gangways fit virtually any dock system, including the Infinity series of docks, and allow you to choose from a variety of hinges and connectors to fit your dock perfectly.

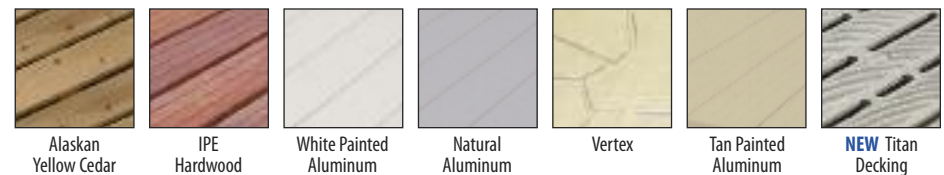

Ramp Connector

- ShoreMaster's ramp connector allows your ramp to pivot up and down and allows for easy removal of the ramp frame.

Standard Ramps

- ShoreMaster's standard ramps are designed to fit the Infinity series of dock systems, the PolyDock, and the FTS9; and are a light-duty option for transitioning from shore to dock. Standard ramps are available in 4' and 8' lengths.

DECK OPTIONS

Custom-Built Docks

Custom-Built Docks

ShoreMaster can design and manufacture a custom-built dock for nearly any waterfront situation. ShoreMaster has engineered marina dock systems throughout the United States, as well as Europe, South America, and Asia. Our Commercial Division has the experience and resources to help you design a custom dock, marina, bridge, or gangway that will withstand the test of time.

Dock Accessories

Dock accessories* from ShoreMaster add the finishing touch to your perfect dock and enhance the dock's beauty and functionality. ShoreMaster's many dock accessories create your premier waterfront experience by taking away the little worries and handling the odd jobs.

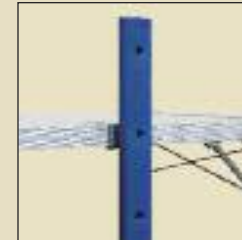

Dock Ladders

- ShoreMaster's pivoting dock ladders will enhance the use of your waterfront.
- Deep 4" steps and all stainless steel hardware ensure a safe and maintenance-free product.
- Available in 3-, 4- and 5-step versions.

Flagpole Holder

- Designed for RS4, RS7, TS9 and PolyDock docks.
- Accepts poles up to 2.5" in diameter.

Vertical Dock Bumper

- Adjustable bumpers protect your boat both above and below the waterline.
- Can be positioned anywhere along your dock.
- Available in tan, blue, black, or white.

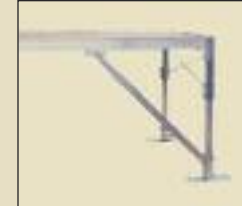

Winch Leveling Kit

- This option allows you to lower and raise your dock without entering the water.
- Available for any standing or wheel-in style dock without an Easy Adjust Leg.

Dock Steps with Hand Rail

- For swimming and safety, ShoreMaster steps are essential. They feature marine alloy aluminum construction with stainless steel hardware.
- Available in 4- and 6-step versions.
- Vertical height (from top of dock to bottom of lake) is 30 - 43" for the 4-step version and 43 - 55" for the 6-step.
- Fits most stationary and wheel-in docks.

Deep-Water Brace

- For deep-water applications (depths 5' or greater), we recommend easy-to-install deep-water braces that will add support to your dock and increase its stability.

Tow Hitch

- Hitch conveniently hooks to your tow vehicle for installation and removal.
- Designed for RS7 and TS9 Wheel-In style docks.

Dock Cleat

- Provides a convenient tie-up for visiting boats.
- Can be positioned anywhere along your dock.
- No drilling required, utilizes the Quick Connection System.

Lakeview Dock Bench

- Available in off- and on-deck styles.
- Mount this versatile bench anywhere on the dock.
- Choose the optional ergonomically-designed armrest with integral beverage holder.

Corner Dock Boxes

- Attractive corner dock boxes are great for storing life jackets, ski ropes, etc.
- 4' x 4' x 28.5".
- Maintenance-free, all-poly construction.
- Engineered to fit most dock's corners.
- Available in white and gray.

Corner Bumper

- Provides additional protection for your boat.
- Available in tan, blue, black, and white.

Rectangular Dock Boxes

- Perfect for fishing rods, water skis and large water toys.
- The included stand allows you to mount the box off the side of your dock to save valuable deck space.
- Available in white, gray and yellow.
- 7' x 2' x 2'.

* Not all dock accessories are shown.

Dock Builder Online

Online Custom Configuration Tool

Dock Builder is the easiest way to visualize your new waterfront. Available online at www.shoremaster.com, it features an easy-to-use interface to configure the dock, lift and accessories that fit your unique shoreline. Once you have the layout, print it out and visit your local ShoreMaster dealer for a price quote. Your waterfront dreams will be a reality in no time.

Step One: Choose the location of your shoreline. **Step Two:** Select your dock type. **Step Three:** Add dock parts, accessories, lifts and canopies. **Step Four:** Print your final waterfront configuration.

ShoreMaster Stands Behind Its Products

- 15-Year Limited Warranty on Aluminum Products
- 8-Year Limited Warranty on PolyDock
- 2-Year Limited Warranty on Remaining Components
